

MIDAS # 3512

TUMBLEDOWN POND

BERLIN NO. 6 TWP, FRANKIN CO., MAINE

9 ACRES

TUMBLEDOWN POND

Township 6 North of Weld, Franklin County
U.S.G.S. Jackson Mountain, Maine (7½') and
U.S.G.S. Roxbury, Maine (7½')

Fishes

Brook trout

Physical Characteristics

Area - 9 acres

Maximum depth - 22 feet

Principal fishery: Brook trout

Temperatures:

Surface - 67°F

20 feet - 63°F

Tumbledown Pond is located high between Little Jackson and Tumbledown Mountains. Small springs enter from all sides of the pond. Its outlet, Tumbledown Brook, flows south into West Brook and eventually Webb Lake. The pond's shoreline is undeveloped.

Water quality in Tumbledown Pond is good for coldwater gamefish. The pond lacks spawning and nursery habitat, so a brook trout fishery is maintained through annual stockings. Trout growth is good with no competition from other fish species.

Tumbledown Pond is accessible via a number of foot trails reach from the Byron Road. The pond is open to fishing with no live fish as bait in the summer and closed to ice fishing.

Surveyed - August, 1966

Resurveyed - 1996
